Customer Problem Statement

I am	Customer and their attributes	An employee who requires licensed software for work and uses the Service Catalog to request IT services.
I'm trying to	What the customer is trying to achieve	Request the required licensed software and have it installed quickly through a simple and transparent process.
but	Problems or barriers	The request can involve manual coordination, approval delays, and several steps before the software is installed.
because	Root cause of the problems	Software installation requests require coordination and approval among the employee, approver, and IT team.
which makes me feel	Emotions caused by the problems	Frustrated and uncertain when the request takes too long or when its current status is unclear.

Combined Customer Problem Statement

I am an employee who needs licensed software for work. I'm trying to request and get the software installed quickly through the Service Catalog, but the process can involve manual coordination and approval delays because several people and steps are involved, which makes me feel frustrated and uncertain about when my request will be completed.
