

User Persona

Employee (End User)

"I need the right software to do my work efficiently."

Name : Puli Jagadeesh

Team ID : Individual

Date : 6 September 2026

Journey Stages		1. Awareness Realize the need	2. Request Find and submit	3. Approval Request gets reviewed	4. Fulfillment Software is installed	5. Completion Use and provide feedback
Steps What does the user do at this stage?		- Identify the need for a software - Learn that software can be requested via Service Catalog	- Log in to the ServiceNow portal - Navigate to Software Catalog - Search and select the required software - Fill in the request details and submit	- Manager receives approval request - Manager reviews the request (approves or rejects) - User is notified about the decision	- IT team receives the approved request - IT installs the licensed software on the user's device - User receives a notification once installation is complete	- Use the installed software for work - Provide feedback or raise a new request if needed
Interactions Who or what do they interact with?		- Communication from IT (emails, announcements) - Colleagues or manager - ServiceNow portal	- ServiceNow portal (Service Catalog) - Software catalog items - Request form	- Manager - Approval workflow in ServiceNow - Email notifications	- IT support team - Catalog task in ServiceNow - Notifications (email/in-app)	- Installed software - Feedback option in ServiceNow - IT support (if issues)
Goals & Motivations What is the user trying to achieve?		- Get the required software to perform my tasks - Find a quick and official way to request it	- Submit a clear and accurate request - Provide necessary details for approval - Complete the process easily	Get my request approved without unnecessary delays	Receive and install the software as soon as possible	- Use the software effectively - Share feedback to improve the service
Positive Moments What do they find enjoyable or satisfying?		- Easy access to information - Clear instructions on how to request	- User-friendly catalog - Simple and guided request form	- Quick approval - Real-time status updates	- Timely installation - Notification when software is ready to use	- Software works as expected - Option to provide feedback
Negative Moments What do they find frustrating or confusing?		- Not aware of the process - Unclear which software to choose	- Difficulty in finding the correct catalog item - Form seems long or confusing - Missing information errors	- Approval takes too long - No updates on request status	- Delays in installation - Software not installed correctly - No communication from IT	- Software issues after installation - No easy way to give feedback
Areas of Opportunity How can we make this better?		- Increase awareness through email and training - Provide a clear list of available software	- Improve search and categorization - Simplify and pre-fill form fields	- Set SLAs for approvals - Send automated status notifications	- Ensure faster fulfillment - Send confirmation with installation details and support contact	- Enable easy feedback option - Provide troubleshooting resources and FAQs
Emotional Journey How do they feel throughout the journey?		Curious	Hopeful	Waiting	Frustrated	Satisfied

"A simple, transparent, and timely request process helps me work efficiently."
